

JOYO/JAEA

- Sodium-cooled fast reactor.
- Expected to open 2025 – 27.
- [Joyo User's Guide \(jaea.go.jp\)](http://jaea.go.jp)

Akira Hasegawa (Tohoku) has requested information from potential UK users (sample wish list):

- Irradiation temperature and dose;
- type and size of specimens;
- number of the specimens.

Formal irradiation contract must be made between UK researchers and JAEA.

If you'd like to have a say in capsule design and irradiation campaign plans, please complete this form **by Friday 20th September:**
